[Flint Pediatric Lead Concerns REVISED.pdf](#)
[ATT00002.htm](#)

The group of physicians mentioned in recent news articles is the Greater Flint Health Coalition. They released the attached study this week and called on the Mayor to launch a public information campaign to encourage flushing and use of filters. The Mayor also set up a public advisory committee last spring to help with risk communication -- which includes several physicians and one or two people from the Cinci Lab.

Rep. Kildee's letter to the Administrator is also attached to this e-mail.
